JAYA ROW

Well-loved Spiritual Leader

Mrs. Jaya Row is one of the most powerful speakers on Vedanta, Indian philosophy.

A microbiologist by training, she once examined life through a microscope. But she chose a nobler mission—to help us see the larger picture.

After a short corporate stint, she devoted herself to the study and research of Vedanta to revive our concept of Indian scriptures. From obsolete texts of bygone ages to a living, vibrant reality for success, happiness and personal growth.

FORMULA FOR SUCCESS

What is success? Is it merely accumulating wealth, building relationships, intellectual satisfaction or is it something more?

Jaya Row will provide an incisive analysis on how one can go beyond mere feeding and clothing to satisfy your own deeper, more meaningful aspirations.
